

Accounts Receivable

Your revenue cycle operation is under constant pressure. It's critical that you maximize the performance of your accounts receivable (A/R). Your partners must deliver tools, business intelligence, and service that matters and generates long term results. Your reimbursement is on the line.

Is your A/R performance not what it should be? Is your aging deteriorating? Cash collections down? Are you converting to a new system? Are you leaving money on the table with your managed care plans? If the answer to any of these questions is YES, then it might be time for a new revenue cycle partner. Time to take a closer look at Pyramid.

Pyramid makes positive contributions to hospitals' A/R every minute of every day. We use industry standard KPIs to create high-performance revenue cycles and measure results. From cash collections to account resolution, we seamlessly integrate with your staff and systems to expedite reimbursement and cash.

With a strong emphasis on knowledge transfer, we ensure that your staff is self-sufficient and better prepared to resume in-house operations once backlog, aged accounts and managed care contracts are cleaned up. We've built our legacy – and our guarantee – on accounts receivables management and service level excellence.

Pyramid Enhances Revenue Cycle Performance and Drives Better Results

Financial health in the era of reform requires continual measurement, and application of evidence-based strategies for improvement as well as performance. But how can you achieve these goals with scarce resources and continually changing reimbursement requirements?
