

Audit Services

Your biggest challenge is our greatest concern: compliance with regulatory requirements. Staying on top of it all is a tremendous strain on you and it promises to get worse. Regulations grow more complex. Audits become more frequent. No one can know it all.

Do RACs and other auditors distract you from fixing coding and documentation? Do you lack the resources to dig deeper into case mix and coding compliance? Will the move to ICD-10 push your department over the edge? The demands increase, as your resources shrink. Pyramid understands.

Amidst all the industry changes since 1985, Pyramid has been a consistent and reliable partner for HIM. Our experts identify issues before they become

organization-wide problems. They discover low-risk, high-yield improvements that quickly boost cash flow and influence quality scores. And since audits are no longer just about RAC, Pyramid conducts all types of post-bill reviews and appeals.

Finally, because ICD-10 has tremendous impact, Pyramid's pre- and post-conversion case mix analysis identifies weaknesses. You get immediate action plans that deliver long-term impact. Expert auditing know-how combined with lasting results is our legacy—and our professional commitment to you. Learn more at: pyramidhs.com.

Audits Increase Revenues, Ensure Compliance

"Pyramid has completed coding audits for Grand River for the past two years. They completed their assignment on time and within budget. I would definitely use them again."

Grand River Hospital District, Colorado

Problem

Often the biggest risks that hospitals face are the ones they don't see. This is especially true of coding, reimbursement and clinical documentation. Beyond an increased focus on documentation and coding, hospitals are faced with a tsunami of governmental and third party auditors—demanding time and taking revenue. More volume and more money are on the line.

Solution

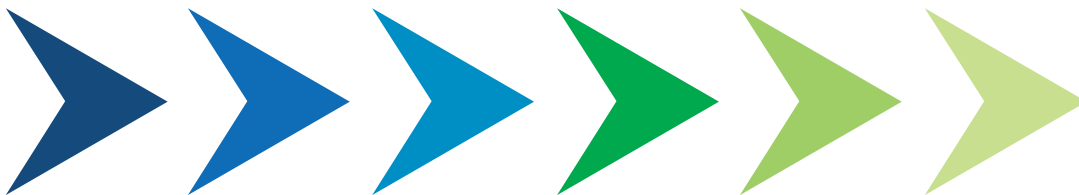

Pyramid helps you see beneath, behind and around coded data to assess, validate and resolve gaps in documentation, coding revenue cycle and HIM performance. Our customers mitigate RAC risk, proactively identify problems and measure physician performance by MS-DRG or APC. And we deliver real, long-lasting results. Ones that extend well beyond our time together.

With Pyramid, you get over 25 years of healthcare expertise, industry know-how and remarkable service in HIM. Our customers enjoy the security and reliability of a lasting auditing relationship, averaging eight years in most cases.

"We appreciate the expertise they bring to our coding review process and the relationships that have been built."

Results

- Long lasting relationships, our average client relationship is eight years
- Identification of documentation improvement opportunities
- Immediate coder education and AHIMA CEUs earned
