

## Coding Services

A healthy revenue cycle relies on accurate and timely coding. Intricate, complicated and highly-visible, even the slightest coding error or backlog downgrades cash flow, quality scores, and accounts receivable. These problems are typically due to understaffing or inexperience in the coding area.

Do you struggle to retain coding staff? Are you experiencing a shortage of credentialed, qualified coders? Do you miss revenue opportunities or suffer from coding errors? The challenges are daunting. Pyramid understands.

Our experienced, credentialed coders address your real challenges—and deliver real results. Whether you face coder shortages, coding quality challenges or need backup support, Pyramid customizes an outsourcing partnership specifically for you. We also offer flex-sourcing, the ultimate flexible staffing model.

Flex-sourcing encompasses remote, onsite, onshore or offshore services with customized pricing and a variety of delivery choices. Isn't it time that you took a closer look at Pyramid? High-quality coding combined with high-touch service is our legacy—and our professional commitment to you.

## Pyramid Earns Your Business with Quality Coding

"Pyramid's remote coding services have become an invaluable and integrated part of our hospital coding team. We're extremely satisfied with their performance and expertise."

*Mount Desert Island Hospital, Maine*

### Problem

Hospitals are stretched thin when it comes to clinical coding. And demands for greater accuracy counter your need for faster productivity. With everyone from governmental auditors to quality agencies and insurance companies looking at codes, now is not the time to embrace the past. You must continually measure, perform and improve.

### Solution

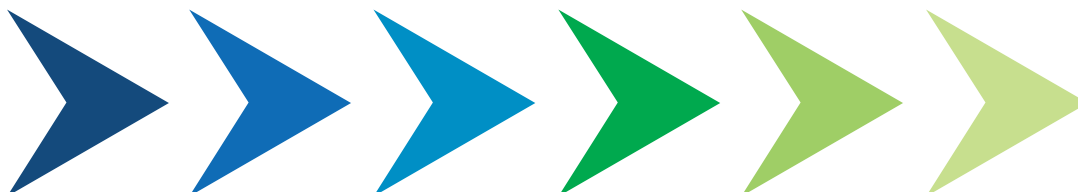

The key is to recognize the coding needs of today and tomorrow, and to systematically integrate solid, long-term partnerships for both. Thanks to a 20-year reputation for quality coding, exceptional foresight and remarkable service, Pyramid continues to serve the coding needs of our nation's most prestigious hospitals.

Pyramid customers enjoy the security and reliability of a lasting client coding relationship; averaging eight years in most cases.

"Another question I am often asked is, "Would you hire them again". The answer is a resounding, YES!"

### Results

- DNFB reduction, CMI improvement and increased cash flow
- Streamlined coding operations
- Reduced coding backlog and increased reimbursement
